INDEX TO VOLUME 7

This index covers the issues for 1994, as follows: January–March, pages 1–60; April–June, pages 61–146; July–September, pages 147–214; and October–December, pages 215–272. Where necessary, the issue number is shown in parentheses before the page number.

Subjects

Acromioclavicular joint, of the shoulder, clinical and functional anatomy of, 65
Activities of daily living, testing of, in tetraplegics (abstract), 47
Adhesive capsulitis, clinical presentation and imaging study evaluation of, 77
American Hand Therapy Foundation, contributor list, 39
American Society of Hand Therapists, annual meeting proceedings of (abstracts), 41
  annual meeting program of, 207
Amputee(s), below-elbow, ability to distinguish weight differences using myoelectric hands (abstract), 204
Arm(s), pronation and supination strengths of forearms, measurement of, 15
Art, hand in, (1):12A; (3):12A; (4):13A
Arthritis, rheumatoid, splinting for (practice forum), 29
Arthrography, for shoulder evaluation, 84
Arthroplasty(ies), trapezial, early mobilization of (abstract), 53
Autonomic nervous system, review of, 245
Average(s), how to avoid being misled by (research for the clinician), 193

Biofeedback, electromyographic, in cumulative trauma disorder (case study), 25
  keyboard operators and (abstract), 48
Biomechanical motion(s), and forces, in high-profile vs low-profile dynamic splinting, 171
Bone scanning, for shoulder evaluation, 84
Book review(s), 33; 201; 260
Botulinum toxin injection, for severe dystonia, therapy after (abstract), 51
Brand, P. W., Hollister, A., *Clinical Mechanics of the Hand* (book review), 201
Butler, D. S., with Jones, M., *Mobilization of the Nervous System* (book review), 33

Caring, for the patient (Nathalie Barr lecture), 1
Carpal tunnel release, endoscopic vs open, patient outcomes with (abstract), 44
  postoperative treatment for, effect of (abstract), 49
  self-administered questionnaire for assessment of (abstract), 205
  therapy after, outcome of (abstract), 46; 50
Carpal tunnel syndrome, during pregnancy, splinting for (abstract), 43
  relationship between symptoms of and clinical tests for (abstract), 41
  reliability and accuracy of Semmes-Weinstein monofilament testing for, 158
  vibrometry examinations and electrodiagnostic studies for, correlation of (abstract), 46
Coauthor(s), how to remain friends with (research for the clinician), 255
Compliance, patient, outcome and, 21
  with treatment, role of (abstract), 49
Computed tomography, for shoulder evaluation, 84
Cumulative trauma disorder(s), *see also* individual condition names
  electromyographic biofeedback for (case study), 25
  occupational, etiology and effects of (abstract), 264
  pinch and grip strength measurement reliability in, 10
Currier, D. P., Nelson, R. M. (eds), *Dynamics of Human Biologic Tissues* (book review), 202

Decision making, in detecting abnormal Semmes-Weinstein monofilament thresholds, 158
Distal interphalangeal joint(s), splinting for (practice forum), 257
Dynamometer(s), Jamar, *see* Jamar dynamometer(s)
Dystonia(s), severe, botulinum toxin injection for, therapy after (abstract), 51

Early controlled motion(s), with dynamic splinting, for extensor tendon lacerations, 232
Early mobilization, *see* Range of motion
Electrodiagnostic study(ies), for carpal tunnel syndrome, correlation with vibrometry examinations (abstract), 46
Electromyographic biofeedback, in cumulative trauma disorder (case study), 25
  keyboard operators and (abstract), 48
Endoscopic carpal tunnel release, *see under* Carpal tunnel release
Extensibility, of extrinsic finger flexor muscles, reliability of a procedure for measuring, 251
Extensor tendon laceration(s), early controlled motion with dynamic splinting vs static splinting for, 232
Extrinsic muscle(s), finger flexor, extensibility of, reliability of a procedure for measuring, 251
  of the shoulder, functions of, 65

Finger(s), mallet, *see* Mallet finger injury(ies)
Flexor tendon(s), in zone II, program for repair of (abstract), 263
Fluoroscopy, for shoulder evaluation, 84
Force(s), biomechanical, and motions, in high-profile vs low-profile dynamic splinting, 171
  tendon and finger joint, in pianists (abstract), 36
Force application, to healing tendon, minimal active muscle–tendon tension program for (abstract), 44
Fracture(s), distal unicondylar, of the proximal interphalangeal joint (abstract), 37
  proximal humeral, management and rehabilitation of, 111

Gilbert, A., Masquelet, A. C., Hentz, V. R. (eds), *Pedicle Flaps of the Upper Limb: Vascular Anatomy, Surgical Technique and Current Indications* (book review), 260
Glenohumeral arthritis, clinical presentation and imaging study evaluation of, 77
Glenohumeral instability, clinical presentation and imaging study evaluation of, 77
Glenohumeral joint, of the shoulder, clinical and functional anatomy of, 65
Grip, positive effect on ulnar variance (abstract), 37
Grip strength(s), measurement reliability of, in cumulative trauma disorders, 10
  reliability of Jamar dynamometer for testing of, 163

Hand(s), in art, (1):12A; (3):12A; (4):13A
Hand elevation, ambulatory arm elevator sling for (practice forum), 197
Hand function, test of, *see* Test(s); Testing
Healing, of wounds, management of (abstract), 206
Health care reform, therapeutic relationship and (presidential address), 226
Health maintenance organization(s), *see* Managed care
High-profile dynamic splinting, biomechanical motions and forces in, vs low-profile dynamic splinting, 171

Imaging technique(s), *see also* individual technique names
  advanced, in hand and wrist pathologic disorders assessment (editorial), 215
  for the shoulder, 77; 84
International Classification of Impairments, Disabilities and Handicaps, proposed amendments to (abstract), 52
Interphalangeal joint(s), *see* Distal interphalangeal joint(s); Proximal interphalangeal joint(s)

INDEX TO VOLUME 7

This index covers the issues for 1994, as follows: January–March, pages 1–60; April–June, pages 61–146; July–September, pages 147–214; and October–December, pages 215–272. Where necessary, the issue number is shown in parentheses before the page number.

Caring, for the patient (Nathalie Barr lecture), 1
Carpal tunnel release, endoscopic vs open, patient outcomes with (abstract), 44
  postoperative treatment for, effect of (abstract), 49
  self-administered questionnaire for assessment of (abstract), 205
  therapy after, outcome of (abstract), 46; 50
Carpal tunnel syndrome, during pregnancy, splinting for (abstract), 43
  relationship between symptoms of and clinical tests for (abstract), 41
  reliability and accuracy of Semmes-Weinstein monofilament testing for, 158
  vibrometry examinations and electrodiagnostic studies for, correlation of (abstract), 46
Coauthor(s), how to remain friends with (research for the clinician), 255
Compliance, patient, outcome and, 21
  with treatment, role of (abstract), 49
Computed tomography, for shoulder evaluation, 84
Cumulative trauma disorder(s), *see also* individual condition names
  electromyographic biofeedback for (case study), 25
  occupational, etiology and effects of (abstract), 264
  pinch and grip strength measurement reliability in, 10
Currier, D. P., Nelson, R. M. (eds), *Dynamics of Human Biologic Tissues* (book review), 202

Decision making, in detecting abnormal Semmes-Weinstein monofilament thresholds, 158
Distal interphalangeal joint(s), splinting for (practice forum), 257
Dynamometer(s), Jamar, *see* Jamar dynamometer(s)
Dystonia(s), severe, botulinum toxin injection for, therapy after (abstract), 51

Early controlled motion(s), with dynamic splinting, for extensor tendon lacerations, 232
Early mobilization, *see* Range of motion
Electrodiagnostic study(ies), for carpal tunnel syndrome, correlation with vibrometry examinations (abstract), 46
Electromyographic biofeedback, in cumulative trauma disorder (case study), 25
  keyboard operators and (abstract), 48
Endoscopic carpal tunnel release, *see under* Carpal tunnel release
Extensibility, of extrinsic finger flexor muscles, reliability of a procedure for measuring, 251
Extensor tendon laceration(s), early controlled motion with dynamic splinting vs static splinting for, 232
Extrinsic muscle(s), finger flexor, extensibility of, reliability of a procedure for measuring, 251
  of the shoulder, functions of, 65

Finger(s), mallet, *see* Mallet finger injury(ies)
Flexor tendon(s), in zone II, program for repair of (abstract), 263
Fluoroscopy, for shoulder evaluation, 84
Force(s), biomechanical, and motions, in high-profile vs low-profile dynamic splinting, 171
  tendon and finger joint, in pianists (abstract), 36
Force application, to healing tendon, minimal active muscle–tendon tension program for (abstract), 44
Fracture(s), distal unicondylar, of the proximal interphalangeal joint (abstract), 37
  proximal humeral, management and rehabilitation of, 111

Gilbert, A., Masquelet, A. C., Hentz, V. R. (eds), *Pedicle Flaps of the Upper Limb: Vascular Anatomy, Surgical Technique and Current Indications* (book review), 260
Glenohumeral arthritis, clinical presentation and imaging study evaluation of, 77
Glenohumeral instability, clinical presentation and imaging study evaluation of, 77
Glenohumeral joint, of the shoulder, clinical and functional anatomy of, 65
Grip, positive effect on ulnar variance (abstract), 37
Grip strength(s), measurement reliability of, in cumulative trauma disorders, 10
  reliability of Jamar dynamometer for testing of, 163

Hand(s), in art, (1):12A; (3):12A; (4):13A
Hand elevation, ambulatory arm elevator sling for (practice forum), 197
Hand function, test of, *see* Test(s); Testing
Healing, of wounds, management of (abstract), 206
Health care reform, therapeutic relationship and (presidential address), 226
Health maintenance organization(s), *see* Managed care
High-profile dynamic splinting, biomechanical motions and forces in, vs low-profile dynamic splinting, 171

Imaging technique(s), *see also* individual technique names
  advanced, in hand and wrist pathologic disorders assessment (editorial), 215
  for the shoulder, 77; 84
International Classification of Impairments, Disabilities and Handicaps, proposed amendments to (abstract), 52
Interphalangeal joint(s), *see* Distal interphalangeal joint(s); Proximal interphalangeal joint(s)

Interrater reliability(ies), of pinch and grip strength measurements, in cumulative trauma disorders, 10
Intrinsic muscle(s), of the shoulder, functions of, 65

Jamar dynamometer(s), for grip strength testing, reliability of, 163
Joint(s), *see* individual joint names

Keyboard operator(s), cumulative trauma disorder in (case study), 25
  electromyographic biofeedback and (abstract), 48
Kloth, L. C., McCulloch, J. M., Feedar, J. A. (eds), *Wound Healing: Alternatives in Management* (book review), 201

Language, professional, *see* Terminology
Low-profile dynamic splinting, biomechanical motions and forces in, vs high-profile dynamic splinting, 171

Magnetic resonance imaging, for shoulder evaluation, 84
Mallet finger injury(ies), compliance and, 21
  of surgeons, splinting for (practice forum), 258
Managed care, therapeutic relationship and (presidential address), 226
  therapist role in, 5; (abstract), 52
Mean(s), how to avoid being misled by (research for the clinician), 193
Metacarpophalangeal joint(s), of thumb, three-point static splint for (practice forum), 195
Minimal active muscle–tendon tension program, for healing tendons (abstract), 44
Mobilization, *see also* Range of motion
  soft-tissue, for connective tissue restrictions (case study), 185
Moment arm(s), rotator cuff and deltoid muscle, changes in during abduction and rotation (abstract), 263
Monofilament(s), *see* Semmes-Weinstein monofilament(s)
Moskowitz, R., Howell, D., Goldberg, V., Mankin, H. (eds), *Osteoarthritis: Diagnosis and Medical/Surgical Management* (book review), 260
Motion(s), biomechanical, and forces, in high-profile vs low-profile dynamic splinting, 171
  continuous passive, vs immobilization (abstract), 36
  continuous passive, stabilizing of finger attachments during (practice forum), 197
  early controlled, with dynamic splinting, for extensor tendon lacerations, 232
Muscle(s), *see* Extrinsic muscle(s); Intrinsic muscle(s)
Myoelectric hand(s), ability of below-elbow amputees to distinguish weight differences using (abstract), 204
Myoelectric prosthesis(es), pediatric, camp for (abstract), 43

Nondominant/dominant ratio(s), *see* Ratio(s)
Nonsteroidal anti-inflammatory drug(s), in performing arts medicine (abstract), 264

Occupational therapy, use of physical agent modalities in (abstract), 45
Orthosis(es), wrist extensor, effects of different styles on hand function, 237

Passive motion, *see also* Range of motion
  continuous, vs immobilization (abstract), 36
  continuous, stabilizing of finger attachments during (practice forum), 197
Patient(s), caring of (Nathalie Barr lecture), 1
Pediatrics, myoelectric camp for (abstract), 43
Physical agent modality(ies), use of in occupational therapy (abstract), 45
Pianist(s), finger joint and tendon forces in (abstract), 36
Pinch strength(s), measurement reliability of, in cumulative trauma disorders, 10
Postoperative rehabilitation, *see* Rehabilitation
Preferred provider organization(s), *see* Managed care
Primary care physician network, *see* Managed care
Pronation, forearm, reliability of measurements of, 15
Prosthesis(es), myoelectric, pediatric, camp for (abstract), 43
Proximal humeral fracture(s), management and rehabilitation of, 111
Proximal interphalangeal joint(s), distal unicondylar fracture of (abstract), 37
Proximal interphalangeal joint(s) (*cont.*)
  splinting for (practice forum), 257
  stabilizing splint for (practice forum), 31

Questionnaire(s), self-administered, for assessment of carpal tunnel release (abstract), 205

Rachlin, E. S., *Myofascial Pain and Fibromyalgia: Trigger Point Management* (book review), 202
Radiography, for shoulder evaluation, 84
Radiologic study(ies), in hand and wrist disorders diagnosis (editorial), 215
Range of motion, early active, for trapezial arthroplasties (abstract), 53
  passive, total end range time improvement of (abstract), 42; 150
Ratio(s), nondominant/dominant, vs absolute torque, reliability of, 15
Reflex sympathetic dystrophy, diagnoses associated with, 245
  history and pathophysiology of (abstract), 206
Rehabilitation, after carpal tunnel release, effect of (abstract), 49
  after carpal tunnel release, outcome of (abstract), 46; (abstract), 50
  compliance with, outcome and, 21
  compliance with, role of (abstract), 49
  continuous passive motion vs immobilization in (abstract), 36
  of cumulative trauma disorder, electromyographic feedback for (case study), 25
  of proximal humeral fractures, 111
  therapeutic relationship and (presidential address), 226
Reimbursement, in managed care, 5; (abstract), 52
Reliability(ies), of absolute torque vs nondominant/dominant ratio, 15
  interrater, of pinch and grip strength measurements, in cumulative trauma disorders, 10
  test–retest, of grip strength measurement using the Jamar dynamometer, 163
  test–retest, of a procedure for measuring extrinsic finger flexor muscle extensibility, 251
  trial to trial, limitations of (research for the clinician), 28
Rockwood, C. A., Jr., Matsen, F. A., III (eds), *The Shoulder* (book review), 261
Rosenbaum, R. B., Ochoa, J. L., *Carpal Tunnel Syndrome and Other Disorders of the Median Nerve* (book review), 34
Rotator cuff disease, clinical presentation and imaging study evaluation of, 77; 90
  treatment for, 90
Rothstein, J. M., Roy, S. H., Wolf, S. L., *The Rehabilitation Specialist's Handbook* (book review), 33

Scapulothoracic joint, of the shoulder, clinical and functional anatomy of, 65
Semmes-Weinstein monofilament(s), effect of decision rules and criterion measures on reliability and accuracy of, 158
Shoulder(s), anatomy and biomechanics of, 65
  of athletes, relationship between instability, impingement, and rotator cuff disorders in, 107
  challenges of (editorial), 61
  and hands, similarities between (editorial), 61
  in hand therapy (special issue), 61–144
  proximal humeral fractures of, management and rehabilitation of, 111
Shoulder abduction, description of, 65
Shoulder complex, integrated activity of, 65
Shoulder disorder(s), *see* individual disorder names
Shoulder instability, classification, evaluation, and management of, 99
Shoulder stiffness, assessment and management of, 122
Sling(s), ambulatory arm elevator, for hand elevation (practice forum), 197
Soft-tissue mobilization technique(s), for connective tissue restrictions (case study), 185
Splint(s), in carpal tunnel syndrome, during pregnancy (abstract), 43
  for proximal and distal interphalangeal joints (practice forum), 257
  for rheumatoid hands (practice forum), 29
  three-point static, for thumb metacarpophalangeal joints (practice forum), 195

Splinting, of arthritic hands (practice forum), 29
for carpal tunnel syndrome, during pregnancy (abstract), 43
dynamic with early controlled motion vs static, for extensor tendon lacerations, 232
dynamic, high-profile vs low-profile, biomechanical motions and forces in, 171
Sternoclavicular joint, of the shoulder, clinical and functional anatomy of, 65
Stiffness, scientific definition of (editorial), 147
Strength(s), grip, measurement reliability of, in cumulative trauma disorders, 10
grip, reliability of Jamar dynamometer for testing of, 163
pinch, measurement reliability of, in cumulative trauma disorders, 10
Subluxation, chronic volar, of thumb metacarpophalangeal joint, splint for (practice forum), 195
Supination, forearm, reliability of measurements of, 15
Suprahumeral space, of the shoulder, clinical and functional anatomy of, 65

Temperature(s), of water and body, and volumetric measurement (letter to the editor), 38
Tendon(s), healing, minimal active muscle–tendon tension program for (abstract), 44
Terminology, for impairments/disabilities/handicaps, proposed definitions of (abstract), 52
Test(s), activities of daily living, in tetraplegics (abstract), 47
Testing, of grip strength, reliability of Jamar dynamometer for, 163
Semmes-Weinstein monofilament, reliability and accuracy of for diagnosing carpal tunnel syndrome, 158
Therapeutic relationship(s), health care reform and (presidential address), 226
Therapist(s), caring of patients by (Nathalie Barr lecture), 1
in managed care, role of, 5; (abstract), 52
Thoracic outlet syndrome, therapist management of, 131
Threshold(s), Semmes-Weinstein monofilament, effect of decision rules and criterion measures on classification of, 158
Thumb(s), metacarpophalangeal joint of, three-point static splint for (practice forum), 195
Torque(s), absolute, vs nondominant/dominant ratio, reliability of, 15
Total end range time, effect of on passive range of motion (abstract), 42; 150
validity of, testing for (abstract), 42; 150
Trial to trial reliability, limitations of (research for the clinician), 28
Tubiana, R. (ed), *The Hand* (book review), 261

Ulnar deviation, splint for (practice forum), 29
Ulnar impaction syndrome, positive effect of grip on (abstract), 37
Ulnar variance, positive effect of grip on (abstract), 37
Ultrasonography, for shoulder evaluation, 84
Upper extremity(ies), *see* Arm(s)

Vibrometry examination(s), for carpal tunnel syndrome, correlation with electrodiagnostic studies (abstract), 46
Volumetric measurement(s), water and body temperature effect on (letter to the editor), 38

Water and body temperature(s), effect of on volumetric measurement (letter to the editor), 38
Water displacement method, water and body temperature effect on (letter to the editor), 38
Weight difference(s), ability of below-elbow amputees using myoelectric hands to distinguish (abstract), 204
Whipple, T. L., *Arthroscopic Surgery: The Wrist* (book review), 35
Wound(s), management of (abstract), 206
Wrist extensor orthosis(es), effects of different styles on hand function, 237

X-ray(s), standard, in hand and wrist pathologic disorders assessment (editorial), 215
